## Introduction

What is the Esoteric Consultant's "Life Work"?

The Life Work of the Esoteric Consultant is:

- 1) The obtaining of a wide knowledge of relevant existential facts (life, the universe, and everything), and then exercising discrimination and skill in the application of esoteric principles to said facts.
- 2) The expounding of the aspects and results of esoteric methods in a clear, accurate, and illuminating way, so that, through the consultant's counsel, the number of those who can independently think and act for themselves may be increased.

Thus it is, and thus shall it be, that the Esoteric Consultant is an "Illuminator", a "teacher", and a "healer".
