(2014)

--()--

Monochromatic Iridology Analysis is achieved through PaintShop Pro 8.

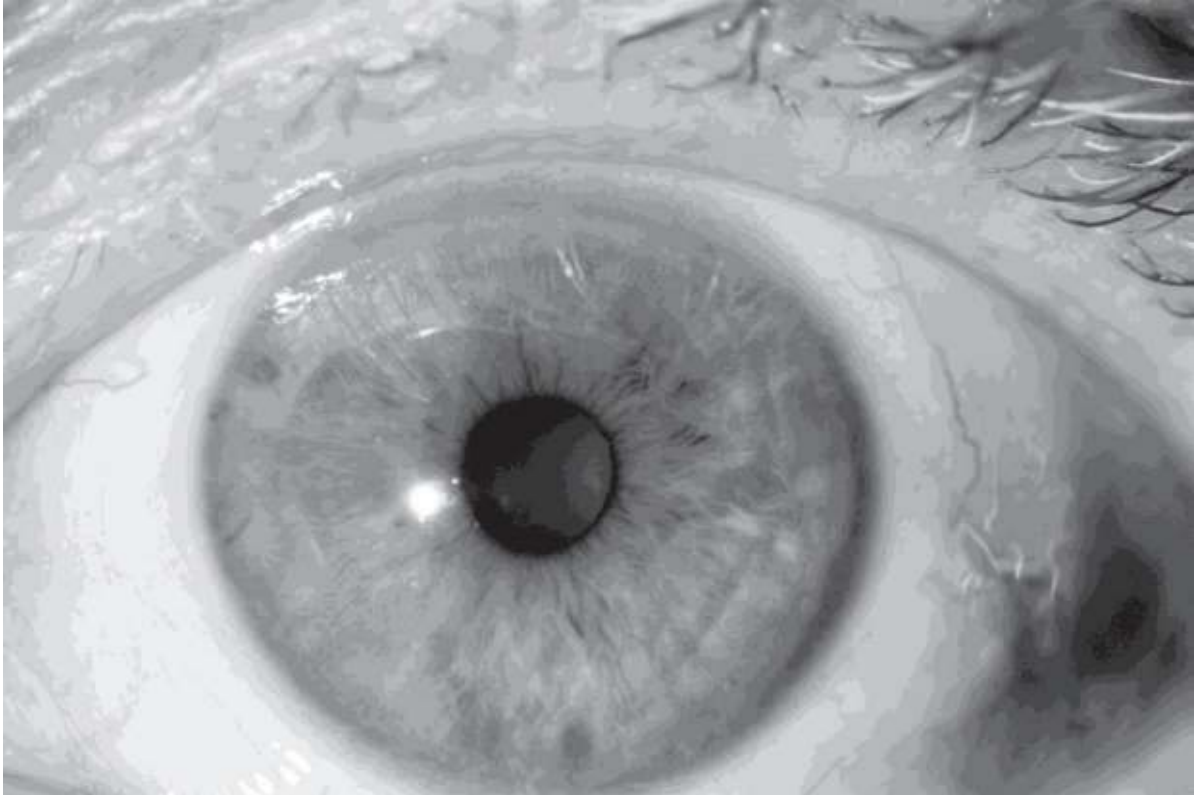

The steps and settings are as follows:

- 1) Load colour Iris photo
- 2) "Image" Tab - "Greyscale"
- 3) "Adjust" Tab - "Brightness and Contrast" - "Automatic Contrast Enhancement..."
- 4) Select: "Lighter", "Normal", "Bold" - and do x 2 iterations (all else is default)
- 5) Save resultant photo as a jpg file
