[Akashic Record] Campbell M Gold (1951-) said: "It is good to read the writings of others, however, the real key to progression lies in the ability of the individual to read, and experience the Akashic Record related to the Physical/Etheric Plane. Herein lies the true path of infinite enlightenment. Herein lies the quest-path of the seeker. Only the courageous and sincere will be able to SEE the way; only if the seeker desires reality with an infinite thirst, will he ever draw near."

[Choice] Campbell M Gold (1951-) said: "There are always alternatives... Always."

[Choice] Campbell M Gold (1951-) said: "True change can only be effected from within yourself."

[Choice] Campbell M Gold (1951-) said: "We choose each day whether we live or whether we die. And in the choosing we declare who we really are. And by the declaration our actions are created."

[Choice] Campbell M Gold (1951-) said: "There is only one law of the universe that we need to concern ourselves, and that is the law of FREE CHOICE."

[Choice] Campbell M Gold (1951-) said: "In any situation there are always alternatives... always."

[Choice] Campbell M Gold (1951-) said: "There is always a choice - one can choose to move, or one can choose not to move."

[Dowsing] Campbell M Gold (1951-) said: "Dowsing? Dowsing can be done by anyone!"

[Endurance] Campbell M Gold (1951-) said: "The pugilist doesn't need to win - however, he does need to go the distance."

[End] When asked what his last words in mortality might be, Campbell M Gold (1951-) answered: "At the end of my mortal reality, I think the most appropriate words that I could leave would be - 'Oh Shit!'"

[Existence] Campbell M Gold (1951-) Said: "The child is the microcosm, the universe is the macrocosm, the adult is the debris after illusion supplants reality. Look through the eyes of a child, and all is bright, alive, and possible. Look through the eyes of an adult, and all is sterile acting. When does the child die into the adult? When he no longer sees the magic of life teaming through everything. When does the adult die? When he no longer recognizes life - this is often at puberty!"

[Experience] Campbell M Gold (1951-) said: "Experience engenders Experience. Experience is the seed of Experience. Experience is the fruit of Experience."

[Experience] Campbell M Gold (1951-) said: "Experience Expands Existence. Existence creates reality so that Experience may be partaken of."

[Happy Life] Campbell M Gold (1951-) said: "The Happy life - the creation of experiences upon the principle of what 'I want', and not upon 'what others want.' Sounds selfish? Yes! However, self-

sacrifice builds no man. Growth must come from self-expansion. However, this should not be at the expense of another individual's growth or freedom. Mutual growth takes place in the interaction of beings with differing skills and needs."

[Life] Campbell M Gold (1951-) said: "The only limitations are the ones we bring with us."

[Life] Campbell M Gold (1951-) said: "The secret of the universe is EXISTENCE, the purpose of life is EXPANSION of EXISTENCE through EXPERIENCE."

[Life] Campbell M Gold (1951-) said: "The journey of life is no measured in distance, but in experience. we have travelled far, and at last we have found ourselves."

[Life] Campbell M Gold (1951-) said: "What is the ultimate expression of life? EXISTENCE, EXPANSION, and EXPERIENCE."

[Life] Campbell M Gold (1951-) said: "The average man today, thinks no further that the end of his knife and fork."

[Life] Campbell M Gold (1951-) said: "That which we have done in the past is that which is the foundation of today. And that which we do today will be the foundation of that which will be tomorrow."

[Life] Campbell M Gold (1951-) said: "An eternal journey is made up of an infinite number of finite steps."

[Life] Campbell M Gold (1951-) said: "The journey of life is merely a process of creative Thinking."

[Life] Campbell M Gold (1951-) said: "Modern man has evolved his psychological profile into that which compares with a dog - feed him, keep him clean, and pet him; and he is happy."

[Life] Campbell M Gold (1951-) said: "We are born, and we die - but how sweet it is to live in between."

[Life] Campbell M Gold (1951-) said: "The Universal Oneness (U.O) is the group of Crystallised entities from the ULFE (Universal Life Force Energy). Each 'Crystallised Entity' has the same divine quotient as every other Entity. That quotient is 1/Infinite part of the reflection of the ULFE... In essence each individual has a unique frequency which is a fundamental harmonic of the ULFE. And together the Universal Oneness (U.O) reflects the totality (full bandwidth) of the ULFE... The Universal Life Force Energy flows, and is refracted by the Universal Oneness (U.O) into the various energy bands. These energy bands are the Fundamental Frequencies of the respective Planes of Existence... Our own individual vibration is the Passport to the various experiences, energies, and levels of access in the Planes themselves... Each plane therefore, is tuned to provide the seeker with the experiences and growth realities that he has chosen on his individual, yet eternal quest."

[Life] Campbell M Gold (1951-) said: "To have lived, and to have been too busy to notice the perfection of the universe in a single stem of grass, is to not have lived at all."

[Life] Campbell M Gold (1951-) said: "Each individual is a unique path back to the primal source of existence from whence he came. No two paths are the same, as no two individual existences are the same. This uniqueness is the focal point of self-esteem, and the acceptance of others, and the acceptance by others. It is therefore important to remember that each individual has his own unique set of dreams. Therefore, let no man be the cause of an unfulfilled dream of another. And let no man shatter the dream of another man. We are, after all, travellers on the common road of expanding awareness, and... all are equal."

[Life] Campbell M Gold (1951-) said: "Each individual is the unique evolution of his own consciousness."

[Life] Campbell M Gold (1951-) said: "The candle that burns twice as bright, only burns half as long."

[Life] Campbell M Gold (1951-) said: "I have faced the reality of life and death, and I have acted in the

capacity of author of my own reality... All is well."

[Life] Campbell M Gold (1951-) said: "At this point in time, you are the sum total of your past life cycles, your experiences, and your decisions to date. There is no point looking for something new, we must rather use, and build upon that which we already are, and have become. There is nothing in the physical plane/world that you do not already know. There is nothing in the physical plane to which you cannot attain. There is nothing in the physical plane to prevent you from creating a bridge into the etheric plane, and thus establish communication with your higher self. There is nothing in the physical plane to prevent you from developing your personal and psychic awareness. There is nothing in the physical plane to prevent you from using your personal and psychic awareness to create any reality you desire. There is actually nothing but YOU... Thank YOU!"

[Music] Campbell M Gold (1951-) said: "Each person vibrates, and responds to Life Force Energy vibration. Each individual dances to his internal drummer. The actual music type is not important; it is the way we feel that is important. Classical, Easy Listening, or Rock Music - it makes no difference to the desired result. Find the Physical Plane Music that you vibrate to, and let it transport you to a level of 'Emotional Enlightenment'. The emotions that we seek will transcend our 'Earthly Emotions'. In these 'New' emotions, we will be released from the earth-bound shackles, and we will soar, with consciousness, 'Heavenward'. Thus it is, and thus it shall be."

[No] Campbell M Gold (1951-) said: "It takes a very great man to say 'no'."

[No] Campbell M Gold (1951-) said: "The greatest word in the English language is 'no'; do you have the courage to use it?"

[Otherside] Campbell M Gold (1951-) said: "Otherside - an alternative view of the known universe - and the roll of hierarchical personified deific structures and entities."

[Physical Plane] Campbell M Gold (1951-) Said: "The only acceptance that an individual must make in the Physical Plane is the acceptance of himself, and the acceptance of his universal and eternal Existence. Once that has been effected the he can create his own path of Expansion through Experience. Through his own creative actions, he thereby becomes that which he desires to become. By becoming that which he desires to become, and by experiencing those realities that he wishes to experience, he is free within his own identity and within his own reality. Personal expansion through experience then becomes the total responsibility of the being who has understood his existence."

[Planet Earth] Campbell M Gold (1951-) Said: "Planet Earth (our current position in the Three-dimensional, Five-sense Physical Plane) is a planet where Blood Worship is a foundation religious precept. On Planet Earth the individual can not only experience Birth and Death cycles, but he can also experience killing other living beings. Further to this the individual, on Planet Earth, can also consume the blood of the beings (animals and birds etc) that he has killed. In the current age (0 - 2000 A.D.) the majority of religious philosophies centre around the blood principle. Examples of Blood Religions include: Christianity, Judaism, Islam, Hinduism, Satanism, Witchcraft and other Blood Earth Cults, etc. This is indeed a raunchy bloody world!"

[Progression] Campbell M Gold (1951-) said: "Before a door can be opened to the future. the door to the past must first be closed."

[Progression] Campbell M Gold (1951-) said: "The Future can never hold the individual back. Only the past can stop our progression."

[Progression] Campbell M Gold (1951-) said: "When we are unable to progress, we must look to the past, and shatter the chains of illusion that bind us to the present."

[Reality] Campbell M Gold (1951-) said: "Only a fool can learn from the experience and mistakes of others. A wise man learns from his own experience and mistakes. Keep a note of the lessons, and wisdom that you have learned, and experienced as reality."

[Reality] Campbell M Gold (1951-) said: "The only constant in our physical universe is death."

[Reality] Campbell M Gold (1951-) said: "What does a man leave when he dies? He leaves everything!"

[Reality] Campbell M Gold: "Our individual actions are not as important as the motivations behind them. The results of our actions are not as important as whether we have learned and grown from them."

[Reality] Campbell M Gold (1951-) said: "The smallest unit or element within the universe is EXISTENCE."

[Reality] Campbell M Gold (1951-) said: "Any spiritual practitioner who gets so excited that he uses the 'F...' word, should be listened to."

[Reality] Campbell M Gold, commenting on the entry into 1993, said: "The old garments we have been vested with, no longer fit us as we journey forward. The epistemologies of two-thousand, four-thousand, ten-thousand, and sixteen-thousand years ago do not fit the children whose faces are lit by the east of a new beginning. The guilt of Lemuria, Atlantis, Judaism, Christianity, and Islam, etc. must be exorcised from our psyche, from the future's psyche. Lest, like chains and fetters, it will drag us down into the suffocating depths of arcane dust and ignorance. The past cannot help us. The past has never helped us. The past has never helped anyone. The past has been, and always will be, a dark and lifeless prison cell. What must we do then? We must look to the future within ourselves, allowing the illumination of life to lead us into the promised land of our own creating. Now, who will stand on either hand, and keep the bridge with me? My friends, my brothers, my children, now dawns an age to be free!"

[Reality] Campbell M Gold (1951-) Said: "We look to the stars, and perceive our own immortality. We reach out to the stars, and feel our own potential. We call to the stars, and they answer: "Come, child of the universe... come and take your rightful place in the cosmos..." And as a trusting child, we hold out our arms... and sleepily, we are carried home. We move towards the stars, and reflected back is our own Godhood."

[Reality] Campbell M Gold (1951-) said: "The three great inventions of our civilisation are: 1) The Wheel, 2) The Micro-Chip, and 3) The Electric-Blanket."

[Reality] When Campbell M Gold (1951-) was asked if he could play the violin, he replied: "I don't know, I've never tried."

[Reality] Campbell M Gold (1951-) said: "At times the mist of injustice and meaningless illusion shroud the reality of existence. It is at that time that we must establish, and take responsibility for, our own reality, and go beyond the mist to our chosen consequences and destinies."

[Reality] Campbell M Gold (1951-) said: "Justice cannot be served; it can only be administered."

[Reality] Campbell M Gold (1951-) said: "To evolve to the highest degree of our own reality, we must be able to judge to the highest degree of life and death. We must have the courage to decree who shall, and who shall not exist within our own archetype."

[Reality] When asked who he was, Campbell M Gold (1951-) said: "I am nobody... I am a shadow... However, glance in the wings, and you will verify my existence."

[Reality] Campbell M Gold (1951-) said: "We have sought to establish a reality that will prevent someone standing between our children and the sun."

[Reality] Campbell M Gold said: "Truth? ...What Truth?"

[Reality] Campbell M Gold (1951-) said: "There is a point beyond which we do not... which we cannot go. And after reaching that point, we act... We act simply, swiftly, and surely."

[Rituals] Campbell M Gold (1951-) said: "The execution of a RITUAL is the reflection of the seeker's

unique inner personality - which is functioning within his reality. The purpose of RITUAL is, and has always been, to enable the seeker to visualise, focus, and direct the DIVINE UNIVERSAL LIFE FORCE ENERGY into a personal reality."

[Shadow] Campbell M Gold (1951-) said: "The shadow must be elusive and undefined. It cannot come into the full presence of light as it will become invisible. After the inner light of the seeker is released, the shadow is no longer visible. Is not this freedom?"

[Sphinx] Speaking of the riddle of the Sphinx, Campbell M Gold (1951-) said: "When you discover yourself as the focal point of existence, and discover the elements of the physical world as the personified energies through which that existence is expressed, the riddle of life is solved - the physical plane is mastered, the Sphinx (the barrier to the onward journey) is destroyed, and the enlightened traveller progresses forward in his spiritual evolution... Remember, each plane and sub-plane has its own 'Sphinx', who will pose a riddle that will unlock the relevant personified energy of reality for use by the traveller. The form of these other Sphinxes is directly related to the dominant element of the plane, and the symbolic representation of the planes dimensions and senses. Only when the individual has completed his expansion in the lower plane will he enter the higher plane, and be confronted with the Sphinx of that higher plane. The experience, and expansion of the lower plane, forms the foundation for experience and expansion in the higher plane. This is true of all the planes of existence within this current archetype."

[Study] Campbell M Gold (1951-) said: "In the world of Esoteric Science, 'WHY' is good to study at first. However, it is 'HOW' that separates the true practitioner from the 'pseudos', and the intellectually narrow person."

[Study] Campbell M Gold (1951-) said: "Group activity for individual development is discouraged, because in group activity, the unique potential of the individual cannot escape beyond the common level of the group."

[Study] Campbell M Gold (1951-) said: "Each person vibrates, and responds to Life Force Energy vibration. Each individual dances to his internal drummer. The actual music type is not important; it is the way we feel that is important. Classical, Easy Listening, or Rock Music - it makes no difference to the desired result. Find the Physical Plane Music that you vibrate to, and let it transport you to a level of 'Emotional Enlightenment'. The emotions that we seek will transcend our 'Earthly Emotions'. In these 'New' emotions, we will be released from the earth-bound shackles, and we will soar, with consciousness, 'Heavenward'. Thus it is, and thus it shall be."

[Study] Campbell M Gold (1951-) said: "It is good to read the writings of others; however, the real key to progression lies in the ability of the individual to read, and experience the Akashic Record related to the Physical/Etheric Plane. Herein lies the true path of infinite enlightenment. Herein lies the quest-path of the seeker. Only the courageous and sincere will be able to SEE the way; only if the seeker desires reality with an infinite thirst, will he ever draw near."

[Thought] Campbell M Gold (1951-) said: "There is nothing that has ever been created, or brought into reality that wasn't first conceived in thought."

[Thought] Campbell M Gold (1951-) said: "Thought is the unsprouted seed of reality."

[Thought] Campbell M Gold (1951-) said: "The student asks: 'What must I do?', the Universe answers: 'Go and Think.'"

[Thought] Campbell M Gold (1951-) said: "As you stand now, you are the sum total of your thoughts to date."

[Thought] Campbell M Gold (1951-) said: "Thought is the only energy that can transcend space, time, and the dimensional barrier."

[Thought] Campbell M Gold (1951-) said: "If you could think but one new thought a day, there would be nothing that was impossible to you."

[Thought] Campbell M Gold (1951-) said: "It only takes one thought... Just one."

[Thought] Campbell M Gold (1951-) said: "The three things that you need to do, are... THINK, THINK, and THINK!"

[Trivia] Campbell M Gold (1951-) said: "Regarding the tomato, don't look too deeply into the microcosmic components - you may get lost in the infinite trivia that you discover there. Rather seek the macrocosmic concepts, and step forward on the broad realities of existence, expansion, and experience."

[ULFE] Campbell M Gold (1951-) said: "ULFE - Primum Initium (First Beginning) - For Us, the ULFE is the source of existence and freedom. This is the No-Thing, the balance of all things into the infinite No-Thing."

End
