Empowerment Programs**

Just the Facts...

Welcome

Welcome to another newsletter...

In this issue, we consider an interesting shift in "Personal Perception", using a pendulum for a "yes" or "no" confirmation, the amazing Colloidal Silver, and looking at a useful program for 2010.

As always, no hugs, just the facts... So let's jump right in...

Kind regards,

Campbell M Gold

An Interesting Shift in Personal and group Perception

Introduction

As we move into 2010, it is increasingly obvious, and worrying, that our perceptive abilities have been radically altered and attenuated by evolving and manipulated group think norms. A pervading energy of domination, aggressiveness, exploitation, unaccountability, and self-gratification has been steadily emerging. The problem is that in an evolving culture, as with our "human" culture, group consciousness, within the various culture groups, becomes greater than the sum of their component

parts (e.g. human individuals) and takes on its own consciousness and exploitive instinct to survive. Hence, as we have increasingly seen over the past years, group and leadership consensus may, and often does become invalid, ill-advised, immoral, self-gratifying, illegal, or just plain incompetent.

Because of this pervading, controlling and exploitive group consciousness, our individual perceptions have also radically changed, and are no longer "rationally" or "logically" reliable - the result is that you can (if you are in a position too) fool, just about all the people, all of the time. Thus we find that, today, objectivity, as a process of analysis and evaluation is no longer reliable, and what is "actually real" can no longer be necessarily confirmed (oft times, "reality" is what an exploitive group says it is - and the manipulated masses unquestioningly accept it). "Truth", "fact", and "reality" have now been so tampered with and manipulated by the "controlling elite", and then injected into the group consciousness, that we, the goyim, can no longer rely upon our rational senses to identify and confirm what is really there. This is not good.

That means that as we move forward into this new and very political phase of human evolution, past track/events/experiences can no longer be used to project forward an accurate prediction of future trends (social, economic, industrial, conflict, health, physical, geological, global, etc). The problem is that none of our current and traditional methods of analysis and diagnosis will produce reliable results.

As we now move into this new, and strange, cycle of universal-energy unfoldment, the past and the future will not necessarily or predictably flow linearly through the "now". Furthermore, the flow of past to future is not necessarily linked or converged through the "now" of experiential reality.

So, what's the solution?

To balance the group consciousness distortion/illusion/delusion, and to arrive at an accurate analysis, it is important, even necessary, to include a "subjective" dimension through which all "objectively" gathered data can be filtered and "tested". That means that for the evaluation of experiential reality, you need to test all things through your 6th sense; and then only hold fast to that which is confirmed thereby.

In other words, develop your intuition to the point that you will be able to see through all things and you will never be fooled or duped again.

The worrying thing is that, today, only about 2% of what we believe to be "true" is, in fact, true! Conversely, 98% of what we are exposed to, manipulated by, and what we believe to be true, is actually "deliberately generated" illusion and delusion. That is why, more than ever before, we need to develop our subjective analytical abilities to enable us to see through the deceptions and falsehoods.

In all this, who or what can you trust?

The only one that you can trust and be guided by is yourself - especially the "inner" subjective you. That is the only "final analysis" that you can accept, trust, and confidently rely upon.

In other words, develop and follow your intuition in all things as you negotiate this strange period. As we operate within the pervading group consciousness, and its expectations for 2012 and beyond, it will be our subjective perceptions, and only our subjective perceptions that will see us through.

So, with the interesting change in "Personal Perception",
this is a good time to really develop your
sixth sense of intuitive understanding and knowing.

Something to Ponder

Today's controlling elite (political, industrial, military, pharmaceutical, financial, etc) often reflect
Alexander Haig, when he said,
"That's not a lie, it's a terminological inexactitude. Also a tactical misrepresentation."

Something to Use

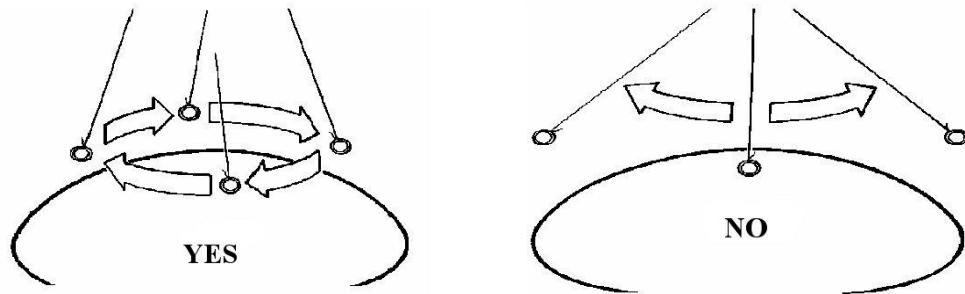

Pendulum Movement

So, you want to get some subjective answers, quickly, and easily... The pendulum is just the thing...

Pendulum movement is interpreted as follows:

PENDULUM MOVEMENT	
MOVEMENT	MEANING
Circular Clockwise	Yes
Vertical or Horizontal Back and Forth	No
Circular Anti-Clockwise	Don't know
Elliptical Clockwise	Yes - However there are reservations that should be further investigated
Elliptical Anti-Clockwise	Don't know - However there are reservations that should be further investigated
No Movement	There is no determinable energy associated with the question
Circular Clockwise Distorted	Yes - However there are obstacles that should be further investigated
Circular Anti-Clockwise Distorted	Don't know - However there are obstacles that should be further investigated

Introduction

Throughout history silver has been used as a preservative and to fight infections; and colloidal silver is a suspension of the element silver in a suitable solution, typically water.

How Does it Work?

Colloidal Silver inhibits the growth of one-celled organisms, (such as bacteria and viruses, etc) by deactivating the organism's oxygen metabolism enzymes. In turn, this destroys the cell's membranes and halts the replication of the cell's DNA.

One of the most interesting aspects of using colloidal silver instead of antibiotics is that the body does not seem to build a resistance to the silver, in the same way that it does to prescription antibiotics. Additionally, colloidal silver also functions as a healing agent.

Uses

Silver, like mercury, was used as a medicine in the late 1800s; and its primary application was as a topical antiseptic. Use of silver, in the form of silver nitrate solution, is still used today in newborns as a topical eye drop to prevent eye infections.

Many people keep colloidal silver in the medicine cupboard, and utilize it for colds and flu, as well as topically, as in cases of rashes or infection on the skin.

Colloidal silver improves digestion, aids in the regeneration of damaged cells and tissues; it also helps to prevent colds, flu, and organism caused diseases.

Other Uses

Research indicates that because of the high absorption of silver in the small intestine, the "friendly bacteria" in the large intestine are not affected. However, all bacterial, viral, and fungal organisms are killed within six minutes of contact with colloidal silver. Higher silver content in the body causes faster and more frequent contact with these organisms; and no "disease causing organism" can live in the presence of simple silver.

The following are a few of the conditions in which the use of Colloidal Silver has proved effective:

- Acne

- Athlete's Foot
- Candida
- Colitis
- Dermatitis
- Eczema
- Flu
- Herpes
- Hepatitis
- Lyme disease
- Malaria
- Pneumonia
- Psoriasis
- Ringworm
- Rhinitis Rosacea
- Shingles
- Staph Infection
- Strep Infections
- Stomach Flu
- Ulcers
- Tonsillitis
- Yeast Infections

Applications

Liquid silver preparations as well as ointment formulations may be applied directly to the skin. However, a few drops on a cotton-bud or dressing may be used to disinfect any wound or sore.

Liquid silver is typically administered orally, but can also be injected. It can also be used vaginally, anally, atomized, or inhaled into the nose or lungs, and it can be dropped directly into the eyes.

Dosage

To start - take one teaspoon, 1 x daily, for seven days; then reduce to 1/2 x teaspoon, 1 x daily.

Children should use proportionally smaller doses.

For colds and flu symptoms, up to 1 x tablespoon, 3 x daily.

Colloidal Silver for AIDS

Since in active aids, the suppressed immune system of the body is open to all kinds of disease, Colloidal Silver may be a beneficial non-toxic supplement because of its ability to fight viruses and bacteria. However, according to USA FDA rules, "Colloidal Silver cannot be marketed or advertised as a treatment for the HIV virus".

Is Colloidal Silver Safe?

Colloidal silver is non-toxic (cannot cause damage to organs - liver, kidneys, etc, as many prescription drugs can do over time), and it is non-addictive. Colloidal silver is even safe for use by pregnant women or nursing mothers.

Q. Can colloidal silver be used daily, indefinitely, as a routine "daily supplement"?

A. It is suggested that colloidal silver be used as needed, for brief periods of time, and then effecting long breaks between usages.

Overdosing should not be of concern even if more than recommended doses are administered. After a few days of use, one might experience a detox effect in the form of feeling sluggish or mild aches. However, consumption of water will cause these symptoms to disappear.

Preparation and Storage

The container and dropper must be glass, as plastic cannot preserve the silver in liquid suspension for any length of time. High concentrations of silver do not kill disease germs more effectively than the safe range of 3 to 5 parts per million (ppm), and may cause silver build-up in the body, eventually resulting in a silver toxicity called Argyria, a permanent discoloration of the skin to a gray shade.

End

A Useful Product for 2010

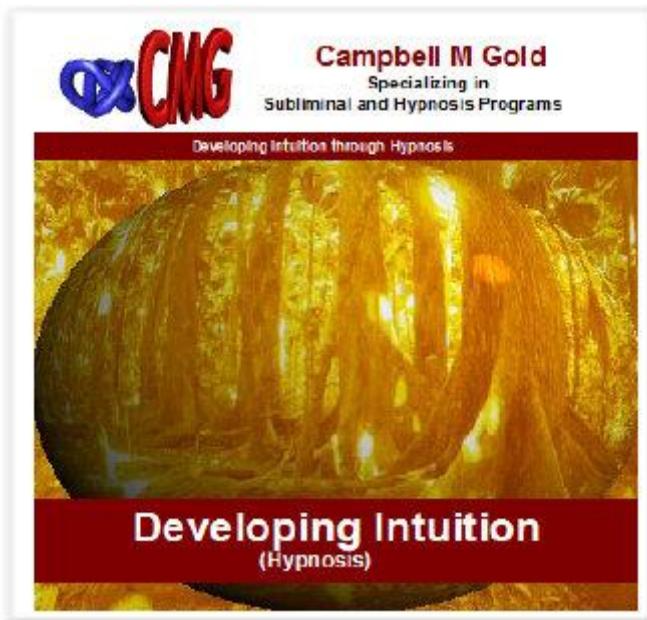

Developing Intuition

With the interesting change in "Personal Perception", this is a good time to really develop your sixth sense of intuitive understanding and knowing.

Description

This program will guide you into a pleasant, deep state, of relaxation through voice, the drowsy sounds of the sea, positive visualisation, affirmations, and dreamy musical ambience.

And in this hypnotic state, you will access, and reprogram, your subconscious mind to enable you to develop and enhance your sixth sense, perceptions, problem solving ability, and natural power of intuition. This program does not contain any subliminal message elements

"This is my favorite CMG program - it relaxes me in such a way that I just drift into that special place where I can find the solutions to my problems and the answers to my questions. I love the steps to developing intuition that are given in the program, and the imagery was definitely written specially for me. Prima!" (Ms J O)

Program Overview

The 'Developing Intuition' Program contains voice, the drowsy sounds of the sea, positive visualisation, and dreamy musical ambience, and you will be guided through the session. As you listen to the program, simply flow with the guided visualisation, and just let go. Listen to this program every day in a time and place where you can give it your full attention and have the freedom to thoroughly relax.

Never listen to this program while driving or operating a machine - it contains a potent relaxation technique that requires you to become deeply and completely relaxed. Although the relaxation technique may be new to you, it is completely safe and natural.

If you are sitting, position yourself with your spine straight, feet flat on the floor, and your palms facing up on your lap. If you are lying down, lie flat on your back with your arms and legs uncrossed.

If you are listening before sleeping (recommended), you will drift off to a pleasant and restful sleep after the program is over. Even if you fall asleep during the program, the powerful suggestions will still reach your subconscious mind, have total effect, and will bring maximum results.

Listening to this program at any other time also induces a state of deep relaxation, from which you will return invigorated.

(Running Time approx 45 Mins)
