Just the Facts...

Welcome

Welcome to this Special Issue Newsletter...

In this special edition, we consider the upcoming "**End of the World - 21 December 2012**", and as requested I have included the associated esoteric existential energy profile for 21 Dec 2012 for your analysis.

I have included something to ponder as we approach 2013.

And I have also included some recommendations to combat the nasty flu virus that is currently with us (Nov 2012). Unfortunately, the unfolding universal energy continues to be negative and there will be choppy times ahead, especially with health issues.

As always, no hugs, just the facts... So let's jump right in...

Kind regards,

Campbell M Gold

End of the World

21 December 2012

Introduction

It is claimed by some people that the Mayan "Long Calendar" returns to zero on 21 Dec 2012; however, other authorities claim that it already returned to zero c. August 2012 (the previous time this occurred was 3114 BC). Consequently, many people believe that this "returning to zero" is, in fact, a doomsday prophecy and the world will end.

The Maya is a Mesoamerican civilization noted for the only known fully developed written language of the pre-Columbian Americas, as well as for its art, architecture, and mathematical and astronomical systems.

Discoveries of Maya occupation at Cuello, Belize have been carbon dated to around 2600 BC; and this level of occupation included monumental structures.

The Maya calendar, which is based around the so-called Mesoamerican Long Count calendar, begins on a date equivalent to 11 August 3114 BC.

However, the most widely accepted view, of Maya beginnings, is that the first clearly Maya settlements were established around 1800 BC in the Soconusco region of the Pacific Coast. This period, known as the Pre-classic (c. 2000 BC to AD 250), was characterized by sedentary communities and the introduction of pottery and fired clay figurines.

According to the Mesoamerican chronology, many Maya cities reached their highest state of development during the Classic period (c. AD 250 to 900), and continued throughout the Post-Classic period until the arrival of the Spanish.

Unlike the Aztec and Inca Empires, there was no single Maya political centre that, once overthrown, would hasten the end of collective resistance from the indigenous peoples. Instead, the conquistador forces needed to subdue the numerous independent Maya polities almost one by one, many of which kept up a fierce resistance. Most of the conquistadors were motivated by the prospects of the great wealth to be had from the seizure of precious metal resources such as gold or silver; however, the Maya lands themselves were poor in these resources. This would become another factor in forestalling Spanish designs of conquest, as they instead were initially attracted to the reports of great riches in central Mexico or Peru.

The Spanish Church and government officials destroyed Maya texts and with them the knowledge of Maya writing, but by chance three of the pre-Columbian books dated to the post classic period have been preserved. These are known as the Madrid Codex, The Dresden Codex and the Paris Codex.

The last Maya states, the Itza polity of Tayasal and the Ko'woj city of Zacpeten, were continuously occupied and remained independent of the Spanish until late in the 17th century. They were finally subdued by the Spanish in 1697.

The End of the World

The following is from <http://www.2012theendoftheworld.net/how-does-the-mayan-long-count-calendar-predict-the-end-of-the-world.html> and is typical of the comments supporting the end-of-the-world viewpoint:

The major reason that a lot of people around the world believe that the world will end in 2012 is because the Mayan Long Count Calendar stops after a cycle of 5,125 years. The day it stops is December 21st, 2012, the day of the winter solstice. The Mayans were an aggressive race who populated modern day South America, concentrated around the Amazon basin. Their contribution to the world would be the accurate astronomical devices they developed.

Centuries ago, the Mayans had almost accurately measured the duration of the lunar moon to be 329.53020 days and they were off the mark by a mere 34 seconds. Given the accuracy of this, there is enough reason to believe that the end of the Long Count calendar marks the end of the world, and hence, the winter solstice of 2012, as per the Mayan calendar, can be taken as the day the world will end. Moreover, the calendar also successfully predicted astronomical events such as lunar eclipses and solar eclipses.

This is enough basis for anyone to believe that the Mayan prediction is correct. Believers of the Mayan calendar also claim that there is a religious aspect to the prediction and supernatural powers will cause the destruction of the world.

Several counter views have been provided for the same but they aren't substantial and cannot deny what has already happened or change what lies ahead of us.

How will the world end on 21 Dec 2012

In consequence of the Mayan calendar's return to zero the following world endings have been "seriously" postulated/predicted/published by various individuals and groups:

Ending	Note
Global Pandemic	In Dec 2012, an incurable disease/infection will destroy the human race (mutated flu, Ebola, accelerated aids, man-made bio-weapons gone wrong/escaped, new strains of plague, etc
Super Volcano	A super volcano will erupt in Dec 2012 and will destroy the Earth
Tectonic Plate Shift	There has been recent increasing tectonic plate activity, and this will trigger massive earthquakes that will destroy the earth in Dec 2012
Asteroid	A giant asteroid will strike the earth on 21 Dec 2012
Solar Storms	Every 11 years the sun becomes more active, and during 2012 there will a peak of solar activity including massive solar flares and solar storms which will destroy the earth
Nuclear Holocaust	The buttons are pressed in Dec 2012 and there is global nuclear holocaust - everything is destroyed
Geomagnetic Reversal	In Dec 2012, the magnetic poles will shift, or will completely flip over, and the earth will be consequently destroyed
Artificial Black Hole	Scientists are working on creating an artificial black hole which will go out of control, in Dec 2012, and will destroy the earth
Planet X	<p>Some people believe that there is a 10th planet in the solar system which is known as Nibiru, or Planet X.</p> <p>These proponents say that Nibiru's orbit will come into the gravitational pull of the Earth sometime in 2012, many believe that it will be Dec 2012, and this will result in worldwide earthquakes, flooding, and other catastrophes which will destroy the earth</p>
Electromagnetic Pulse	In Dec 2012, an electromagnetic pulse is going to be generated from solar activity or a nuclear explosion/accident, and the earth will be destroyed in consequence
Gamma-Ray Burst	A local star will explode and the earth will be destroyed by the resultant gamma rays in Dec 2012
Ocean Acidification	Because of the rising carbon dioxide levels on the earth the oceans are going to become acidified and everything will die - the human race included
Robot Takeover	Some people believe that, in Dec 2012, "technology" will become spontaneously sentient and will take-over and destroy the world (at least the human race will be destroyed)
Zombies	An incurable mutant virus will appear in Dec 2012 and will turn the human race into zombies
An unknown factor	Many people believe that an "unknown factor" will destroy the earth in Dec 2012 - the key being the total and unexpected destruction of the earth
Alien Invasion	Many people believe that aliens are amassing an invasion force which will invade and destroy the earth in Dec 2012

Ending	Note
God	God is going to punish the disobedient people of the earth by simply destroying the lot of them (He did this once before with the great flood - what method He will employ on 21 Dec 2012 is not yet revealed)

Conclusion

The world will **NOT** end on 21 December 2012 - so go and have yourself a great Christmas.

A new cycle began c. 21 Sep 2012 wherein the past compresses through a reflective birthing cycle into an initial future of reflexed manifestation.

However, there is no indication that the world will end on 21 Dec 2012.

Note: There is an intensely emotional reflexed Grand Trine with a kite extension that confirms this important time of personal reevaluation.

--()--

This will be a time of very interesting and contrasting energy manifestation (as above, so reflexed below; and as below, so reflexed above) within all levels of the individual's being (physical/health, emotional/feelings, mental/perceptions, and consciousness/projection).

Additionally, influences from the past, including past cycles, will particularly impinge upon the now - especially those past cycles with unfinished business or unresolved issues from the more recent past.

This will also be true of social change cycles, and past cycles will be reflected in the manifested energy of the now. Consequently, this will be a good time to look back to move forward - to let go of (ground) restricting past issues and to project unencumbered into the future.

Again, I reiterate that there is no indication that the world will end on 21 Dec 2012.

--()--

Important:

As this new cycle unfolds, the reflex components will slowly fade over time.

Unfortunately, there is no "one size fits all" interpretation, and the unfolding cycle's energy profile must be overlaid on the individual's life-force energy profile, or the social collective profile, to analyse specific influences and to extrapolate possible trends.

Something to Ponder

THE

FOUR AGREEMENTS

(Good advice for 2013)

by

Don Miguel Ruiz

--()--

ONE:

BE IMPECCABLE WITH YOUR WORD

Speak with integrity. Say only what you mean. Avoid using the word to speak against yourself or to gossip about others. Use the power of your word in the direction of truth and love.

--()--

TWO:

DON'T TAKE ANYTHING PERSONALLY

Nothing others do is because of you. What others do and say is a projection of their own reality, their own dream. When you are immune to the opinions and actions of others, you won't be the victim of needless suffering.

--()--

THREE:

DON'T MAKE ASSUMPTIONS

Find the courage to ask questions and to express what you really want. Communicate with others as clearly as you can to avoid misunderstandings, sadness, and drama. With just this one agreement, you can completely transform your life.

--()--

FOUR:

ALWAYS DO YOUR BEST

Your best is going to change from moment to moment. It will be different when you are healthy as opposed to sick. Under any circumstance, simply do your best and you will avoid self-judgment, self-abuse, and regret.
