Introduction

There is no prescribed, mandatory, or recommended way to operate the 7-21092014 Radionics Machine - it is simply a psychomagnetheric extension/channel of the operator.

Consequently, the machine can be used in any configuration to analyse/diagnose witness energy, dynamics, and experiential reality; and to augment, amplify, encode, potentize, and project/broadcast the operator's intention (remedy, etc).

(Picture Right - 7-21092014 Radionics Machine)

The 7-21092014 Radionics Machine is modular based, completely passive, and utilizes only subtle psychomagnetheric life-force energy as channelled and directed by the operator.

Although the machine is constructed with electrical components and wired pathways, these are etheric level symbols only and have no relevance whatever in an electrical or electronic sense.

If asked the question, "Is the 7-21092014 Radionics Machine 'Science' or 'Magic'?", the answer is "Yes."

--()--

Modules

Witness Pad - The Witness pad is a conductive device which is used to input the witness item, intention, symbol, remedy, or trend samples, etc. A larger, conductive, external witness pad/well can be connected as an accessory.

Broadcast Pad - the broadcast pad is used to transmit intentions, trends, remedies, etc to a specific target. The broadcast pad employs a specialist shaped mono-filiar flat coil.

Potentize Pad - the potentize pad is used to potentize targets and trends, etc. The potentize pad employs a specialist circular mono-filiar flat coil. An external potentize well, with the coil wound around the well, can be connected as an accessory. There is also a multiplier switch to set the scale value - x1-x10-x100.

Dowse Pad - the dowse pad is an output device which is used to confirm the tuned rate for the current operation or sub-operation, and to confirm interrogation responses with psychometry operations. Thus, the dowse pad is used as a focal area when a pendulum is used.

The dowse pad employs a specialist bi-filiar circular flat coil, and the metal surface can be switched from being isolated to being connected to its associated coil. The metal plate can have a thin, low friction insulated area that can be used for "stick" responses. An external, insulated (no metal components), bi-filiar coiled dowse/stick pad can be connected as an accessory.

Input and Output Ports - Jack/Coax sockets are provided for accessory and antenna connection. The machine has a specific input/output socket configuration (resistive/non-resistive, etc) - see the circuit diagram for details.

Switches - Switches are provided on the various modules to switch them in and out as required.

Additionally the Input and output ports can also be switched in and out as required. See the relevant circuit diagram for details.

Potentiometers - There are seven pots, marked 1 - 100, which are used as tuning devices - these have neither input nor output functions.

The pots determine the energy vibration rates of the witness and the intention, and also set the potency level.

The seven pots are grouped as:

- 3 x "**Witness & Diagnosis**" pots
- 3 x "**Remedy & Intention**" pots
- 1 x "**Potency Select**" pot

Rate Note:

The rates indicated by the tuning processes do not correspond to any existing "Radionics Rate System" - thus, the rates indicated are unique to 7-21092014 Radionics Machine.

Optimal Tuning Note:

For optimal tuning it is suggested that all Pots be turned to 0% prior to any tuning procedure.

Trend Note:

In the 7-21092014 Radionics Machine the term "trend" is synonymous with the "intention" or the "remedy" or the "rate defined energy" that is being used to potentize or is being directed/broadcasted towards a target.

Integral Antenna - the lid antenna, or an external antenna, can be plugged into one of the output coax ports to further amplify the broadcast.

(Picture Right - *Integral Antenna*)

External Accessories - External accessories can be connected to the input and output ports - this include pendulums, head bands (forehead chakra), wrist bands (pulse point), additional pads and wells (witness, stick, potentize, broadcast, etc)), wired sync-stones, slices, and rods, MP3/CD/cassette players, headphones, and antennas, etc. See "Accessories" later in this material for examples.

Psychomagnetheric Amplifier - The Final Stage
Psychomagnetheric Amplifier is housed in a capacitive filled casing in the lid of the machine.

The supplied Amplifier can be easily replaced with any suitable amplifier of choice.

Important:

If the Psychomagnetheric Amplifier is unplugged, a shorting plug must be used to maintain system integrity and continuity.

(Picture Above - *Final Stage Psychomagnetheric Amplifier*)

--()---

Machine Operations

The following information describes some, but is not limited to, possible applications of the 7-21092014 Radionics Machine.

Important:

**Before beginning any procedure,
don't forget to switch out everything (all switches off),
and then switch in the witness and dowse pads**

**For optimal tuning it is suggested
that all Pots be turned to 0%
prior to any tuning procedure**

Single Pad - Simple Intention

1) Place the witness sample (hair, blood, photo, picture, written description, Astro-chart, an object or something that was from "the place" in question (Psychometry), or an image, etc) on the witness pad. This is the target to be analysed/operated upon - it can be anything.

2) Write the desired intentions on a piece of paper and placed on the witness pad with the witness sample. Alternatively, add an appropriate intention symbol on the witness pad with the witness sample.

3) Dowse with a pendulum over the dowse pad while the pots are tuned - "Witness & Diagnosis" 1st, then "Remedy & Intention". When the pendulum appropriately confirms, the pots are correctly tuned to the rates relative to the witness sample and intention being carried out. It is important that the operator, to the exclusion of all else, should intensely concentrate and focus their mind on the desired intention during tuning.

Note: Consider connecting the pendulum into one of the machine's input or output ports to increase sensitivity.

3a) Alternatively connect an external stick pad and lightly stroke it with the thumb while the pots are tuned - "Witness & Diagnosis" 1st, then "Remedy & Intention". When the thumb feels "stuck", the pots are correctly tuned to the rates relative to the witness sample and intention being carried out. It is important that the operator, to the exclusion of all else, should intensely concentrate and focus their mind on the desired intention during tuning.

4) Switch in an appropriate broadcast stage/antenna to further amplify the intention.

5) The intention process should be run for whatever time the operator considers appropriate.

6) When the process is complete, remove all witness and other materials, and set the machine to a neutral state (operator's discretion).

Note: the Simple Intention process is similar to that used in Single Pad Radionics Whishing Machines.

--()---

Symbol Directed Intention to a Target (person, etc)

1) Place a symbol of the desired intention (symbol, picture, image, relevant item (money, remedy, etc), written description, etc) on the witness pad.

2) Place the target sample (hair, blood, photo, name and details on a piece of paper, Astro chart, etc) on the broadcast pad.

3) Dowse with a pendulum over the dowse pad while the pots are tuned - "Witness & Diagnosis" 1st, then "Remedy & Intention". When the pendulum appropriately confirms, the pots are correctly tuned to the rates relative to the witness symbol, intention, and the target (person, etc). It is important that the operator, to the exclusion of all else, should intensely concentrate and focus their mind on the desired intention during tuning.

Note: Consider connecting the pendulum into one of the machine's input or output ports to increase sensitivity.

3a) Alternatively connect an external stick pad and lightly stroke it with the thumb while the pots are tuned - "Witness & Diagnosis" 1st, then "Remedy & Intention". When the thumb feels "stuck", the pots are correctly tuned to the rates relative to the witness symbol, intention, and the target (person, etc). It is important that the operator, to the exclusion of all else, should intensely concentrate and focus their mind on the desired intention during tuning.

4) Switch in an appropriate broadcast antenna to further amplify the intention.

5) The intention process should be run for whatever time the operator considers appropriate.

6) When the process is complete, remove all witness and other materials, and set the machine to a neutral state (operator's discretion).

--()---

Potentizing

1) Place the witness sample (remedy, written description/intention, symbol, etc) on the witness pad - this is what will operate on/potentize the target.

2) Place the target sample (hair, blood, lactose pills, alcohol, water, sync stone, etc) on the potentize pad.

3) Set the "Potency Select" pot to the desired level, and set the multiplier switch to the desired range. If no particular potency level is required, set the "Potency Select" pot to maximum (e.g. 100) and the multiplier switch to x1.

4) Dowse with a pendulum over the dowse pad while the pots are tuned - "Witness & Diagnosis" 1st, then "Remedy & Intention". When the pendulum appropriately confirms, the pots are correctly tuned to the rates relative to the potentization operation/intention being carried out. It is important that the operator, to the exclusion of all else, should intensely concentrate and focus their mind on the desired intention during tuning.

Note: Consider connecting the pendulum into one of the machine's input or output ports to increase sensitivity.

4a) Alternatively connect an external stick pad and lightly stroke it with the thumb while the pots are tuned - "Witness & Diagnosis" 1st, then "Remedy & Intention". When the thumb feels "stuck", the pots are correctly tuned to the rates relative to the witness symbol, intention, and the target (person, etc). It is important that the operator, to the exclusion of all else, should intensely concentrate and focus their mind on the desired intention during tuning.

5) If appropriate (the target is a person, etc), switch in a broadcast antenna to further amplify the intention.

6) Allow the potentization process to run for 10 to 20 minutes - or whatever time the operator considers appropriate.

7) Use the potentized target, if it is a remedy, etc, as required.

8) When the process is complete, remove all witness and other materials, and set the machine to a neutral state (operator's discretion).

--()--

Single-Pad Simple Broadcasting

1) Place the witness sample (remedy, written description/intention, etc) on the witness pad - this is what will be broadcasted to operate on the target.

2) Place the target sample (hair, blood, photo, picture, written description, etc) on the witness pad. This is the target to be operated upon - it can be anything.

3) Dowse with a pendulum over the dowse pad while the pots are tuned - "Witness & Diagnosis" 1st, then "Remedy & Intention". When the pendulum appropriately confirms, the pots are correctly tuned to the rates relative to the witness, the target, and the desired operation/intention. It is important that the operator, to the exclusion of all else, should intensely concentrate and focus their mind on the desired intention during tuning.

Note: Consider connecting the pendulum into one of the machine's input or output ports to increase sensitivity.

3a) Alternatively connect an external stick pad and lightly stroke it with the thumb while the pots are tuned - "Witness & Diagnosis" 1st, then "Remedy & Intention". When the thumb feels "stuck", the pots are correctly tuned to the rates relative to the witness, the target, and the desired operation/intention. It is important that the operator, to the exclusion of all else, should intensely concentrate and focus their mind on the desired intention during tuning.

4) Switch in an appropriate broadcast antenna to further amplify the intention.

5) The broadcast process should be run for whatever time the operator considers appropriate.

6) When the process is complete, remove all witness and other materials, and set the machine to a neutral state (operator's discretion).

--()--

Multi-Pad Broadcasting

1) Place the witness sample (remedy, written description/intention, etc) on the witness pad - this is what will be broadcast to operate on the target.

2) Place the target (hair, blood, photo, picture, written description, etc) on the broadcast pad. This is the target to be operated upon - it can be anything.

3) Dowse with a pendulum over the dowse pad while the pots are tuned - "Witness & Diagnosis" 1st, then "Remedy & Intention". When the pendulum appropriately confirms, the pots are correctly tuned to the rates relative to the operation/intention being carried out. It is important that the operator, to the exclusion of all else, should intensely concentrate and focus their mind on the desired intention during tuning.

Note: Consider connecting the pendulum into one of the machine's input or output ports to increase sensitivity.

3a) Alternatively connect an external stick pad and lightly stroke it with the thumb while the pots are tuned - "Witness & Diagnosis" 1st, then "Remedy & Intention". When the thumb feels "stuck", the pots are correctly tuned to the rates relative to the operation/intention being carried out. It is important that the operator, to the exclusion of all else, should intensely concentrate and focus their mind on the desired intention during tuning.

- 4) Switch in an appropriate broadcast antenna to further amplify the intention.
- 5) The broadcast process should be run for whatever time the operator considers appropriate.
- 6) When the process is complete, remove all witness and other materials, and set the machine to a neutral state (operator's discretion).

--()--

Un-tuned Simple Broadcasting

- 1) Place the witness sample (remedy, written description/intention, etc) on the witness pad - this is what will be broadcast to operate on the target.
- 2) Place the target (hair, blood, photo, picture, written description, etc) on the broadcast pad. This is the target to be operated upon - it can be anything.
- 3) Turn all tuning pots to maximum (e.g. 100)
- 4) Switch in an appropriate broadcast antenna to further amplify the intention.
- 5) The broadcast process should be run for whatever time the operator considers appropriate.
- 6) When the process is complete, remove all witness and other materials, and set the machine to a neutral state (operator's discretion).

--()--

Establishing a Witness/Remedy Rate

- 1) Place the witness/remedy sample (remedy, written description/intention, etc) on the witness pad - this will be analysed and a rate established.
- 2) Dowse with a pendulum over the dowse pad while the pots are tuned - "Witness & Diagnosis" 1st, then "Remedy & Intention". When the pendulum appropriately confirms, the pots are correctly tuned to the rates relative to the witness/remedy sample. It is important that the operator, to the exclusion of all else, should intensely concentrate and focus their mind on the desired intention during tuning.

Note: Consider connecting the pendulum into one of the machine's input or output ports to increase sensitivity.

2a) Alternatively connect an external stick pad and lightly stroke it with the thumb while the pots are tuned - "Witness & Diagnosis" 1st, then "Remedy & Intention". When the thumb feels "stuck", the pots are correctly tuned to the rates relative to the witness/remedy sample. It is important that the operator, to the exclusion of all else, should intensely concentrate and focus their mind on the desired intention during tuning.

- 3) If desired, re-confirm the witness/remedy specimen rate by dowsing with the pendulum over the dowse pad and fine tune if necessary.

2a) Alternatively, if an external stick pad has been connected, and if desired, re-confirm the witness/remedy specimen rate by lightly stroking the stick pad, with the thumb, and fine tune if necessary.

Rate Note:

**The rates indicated by the tuning processes
do not correspond to any existing**

**"Radionics Rate System" - thus, the rates indicated
are unique to 7-21092014 Radionics Machine.**

--()--

Nullifying a Rate

- 1) If, after tuning into a witness sample ("Witness & Diagnosis" pots), the operator wants to nullify the rate (e.g. an illness has been tuned into), simply subtract the tuned rate on each pot from 100 and set it thereto. For instance, the witness has an illness and is tuned to "Witness" pot 1 = 20, "Witness" pot 2 = 70, and "Witness" pot three = 60. Thus, to nullify the rate, the operator would set "Witness" pot 1 to 80, "Witness" pot 2 to 30, and "Witness" pot three to 40.
- 2) If desired, now tune a remedy using the "Remedy & Intention" pots. If a tuned remedy is not wanted, simply set the "Remedy & Intention" pots to maximum (e.g. 100).
- 3) Switch in an appropriate broadcast stage/antenna to further amplify the nullifying intention.
- 4) The nullifying process should be run for whatever time the operator considers appropriate.
- 5) When the process is complete, remove all witness and other materials, and set the machine to a neutral state (operator's discretion).

--()--

Analysis - Un-tuned

- 1) Place the witness sample (hair, blood, photo, picture, written description, an object or something that was from the place in question (psychometry), or an image, etc) on the witness pad - this is the target to be analysed.
- 2) Turn all tuning pots to maximum (e.g. 100)
- 3) Dowse with a pendulum over the dowse pad while asking appropriate "yes/no" questions (use a systemic checklist for health diagnosis). When the pendulum appropriately confirms, an affirmative/confirmation has been given.

Note: Consider connecting the pendulum into one of the machine's input or output ports to increase sensitivity.

3a) Alternatively connect an external stick pad and lightly stroke it with the thumb while asking appropriate "yes/no" questions (use a systemic checklist for health diagnosis). When the thumb feels "stuck" an affirmative/confirmation has been given.

- 4) Repeat for all appropriate questions
- 5) When the process is complete, remove all witness and other materials, and set the machine to a neutral state (operator's discretion).

--()--

Analysis - Tuned

- 1) Place the witness sample (hair, blood, photo, picture, written description, an object or something that was from the place in question (psychometry), or an image, etc) on the witness pad - this is the target to be analysed.
- 2) Set the "Remedy & Intention" pots to maximum (e.g. 100).

3) Dowse with a pendulum over the dowse pad while the "Witness & Diagnosis" pots are tuned. When the pendulum appropriately confirms, the pots are correctly tuned to the energy of the witness sample. It is important that the operator, to the exclusion of all else, should intensely concentrate and focus their mind on the desired intention during tuning.

Note: Consider connecting the pendulum into one of the machine's input or output ports to increase sensitivity.

3a) Alternatively connect an external stick pad and lightly stroke it with the thumb while the pots are tuned. When the thumb feels "stuck", the pots are correctly tuned to the energy of the witness sample. It is important that the operator, to the exclusion of all else, should intensely concentrate and focus their mind on the desired intention during tuning.

4) Dowse with a pendulum over the dowse pad while asking appropriate "yes/no" questions (use a systemic checklist for health diagnosis). When the pendulum appropriately confirms, an affirmative/confirmation has been given.

Note: Consider connecting the pendulum into one of the machine's input or output ports to increase sensitivity.

4a) Alternatively connect an external stick pad and lightly stroke it with the thumb while asking appropriate "yes/no" questions (use a systemic checklist for health diagnosis). When the thumb feels "stuck" an affirmative/confirmation has been given.

5) Repeat for all appropriate questions

6) When the process is complete, remove all witness and other materials, and set the machine to a neutral state (operator's discretion).

--()--

Debt Nullification and Wealth Attraction Remedy Potentization/Broadcast

Each stage of the process can be confirmed by dowsing with a pendulum over the dowse pad.

Debt Nullification

1) Place a note or statement of debt to be nullified on Witness Pad

2) Dowse with a pendulum over the dowse pad while the "Witness & Diagnosis" pots are tuned. When the pendulum appropriately confirms, the pots are correctly tuned to the energy of the witness sample (Debt). It is important that the operator, to the exclusion of all else, should intensely concentrate and focus their mind on the desired intention during tuning.

Note: Consider connecting the pendulum into one of the machine's input or output ports to increase sensitivity.

2a) Alternatively connect an external stick pad and lightly stroke it with the thumb while the pots are tuned. When the thumb feels "stuck", the pots are correctly tuned to the energy of the witness sample (Debt). It is important that the operator, to the exclusion of all else, should intensely concentrate and focus their mind on the desired intention during tuning.

3) After tuning into the witness sample ("Witness & Diagnosis" pots), the operator nullifies the rate (e.g. the Debt) by subtracting the tuned rate on each "Witness & Diagnosis" pot from 100 and set it thereto. For instance, the Debt is tuned to "Witness" pot 1 = 20, "Witness" pot 2 = 70, and "Witness" pot three = 60. Thus, to nullify the Debt, the operator would set "Witness" pot 1 to 80, "Witness" pot 2 to 30, and "Witness" pot three to 40.

Wealth Attraction Remedy

4) The note or statement of Debt is removed from the Witness Pad and is replaced with a symbol or written intention of the desired wealth.

5) Concentrate on the desired wealth while dowsing with a pendulum over the dowse pad, and tuning the "Remedy & Intention" pots. When the pendulum appropriately confirms, the pots are correctly tuned to the rate of the witness intention. It is important that the operator, to the exclusion of all else, should intensely concentrate and focus their mind on the desired intention during tuning.

Rate Note:

The rates indicated by the tuning processes do not correspond to any existing "Radionics Rate System" - thus, the rates indicated are unique to 7-21092014 Radionics Machine.

5a) Alternatively connect an external stick pad and lightly stroke it with the thumb while concentrating on the desired wealth, and tuning the "Remedy & Intention" pots. When the thumb feels "stuck", the pots are correctly tuned to the rate of the witness intention. It is important that the operator, to the exclusion of all else, should intensely concentrate and focus their mind on the desired intention during tuning.

Potentize the Target

6) Place an image of the target (photo, etc), or an intention note, on the potentize pad, set the "Potency Select" pot to the desired level, and set the multiplier switch to the desired range (if no particular potency level is required, set the "Potency Select" pot to maximum (e.g. 100) and the multiplier switch to x1), and switch the pad in.

7) Allow the potentization phase to run for whatever time the operator considers appropriate.

Broadcast (optional)

8) Switch in an appropriate broadcast antenna/stage to further amplify the intention.

9) The broadcast process should be run for whatever time the operator considers appropriate.

10) When the whole process is complete, remove all witness and other materials, and set the machine to a neutral state (e.g. all switches off).

--()--

Health Analysis, Trend/Remedy Creation, and Trend/Remedy Broadcast

Each stage of the process can be confirmed by dowsing with a pendulum over the dowse pad.

Analysis

1) Place the witness sample (hair, blood, photo, picture, written description, astro chart, etc) on the witness pad - this is the target to be analysed/operated upon.

2) Dowse with a pendulum over the dowse pad while the "Witness & Diagnosis" pots are tuned. When the pendulum appropriately confirms, the pots are correctly tuned to the energy of the witness sample. It is important that the operator, to the exclusion of all else, should intensely concentrate and focus their mind on the desired intention during tuning.

Note: Consider connecting the pendulum into one of the machine's input or output ports to increase sensitivity.

2a) Alternatively connect an external stick pad and lightly stroke it with the thumb while the - "Witness & Diagnosis" pots are tuned. When the thumb feels "stuck", the pots are correctly tuned to the energy of the witness sample. It is important that the operator, to the exclusion of all else, should intensely concentrate and focus their mind on the desired intention during tuning.

Diagnosis

1) Dowse with a pendulum over the dowse pad while asking appropriate "yes/no" questions (use a prepared systemic checklist if appropriate). Note all affirmatives/confirmations given by the pendulum.

Note: Consider connecting the pendulum into the machine's input or output port to increase sensitivity.

1a) Alternatively connect an external stick pad and lightly stroke it with the thumb while asking appropriate "yes/no" questions (use a systemic checklist if appropriate). When the thumb feels "stuck" an affirmative/confirmation has been given. Note all affirmatives/confirmations given by the stick pad.

Establishing the Remedy Rate

1) Concentrate on the indicated diagnosis and the creation of an appropriate remedy rate while dowsing with a pendulum over the dowse pad, and tuning the "Remedy & Intention" pots. When the pendulum appropriately confirms, the pots are correctly tuned to the rate of the witness sample and the appropriate remedy. It is important that the operator, to the exclusion of all else, should intensely concentrate and focus their mind on the desired intention during tuning.

Note: Consider connecting the pendulum into one of the machine's input or output ports to increase sensitivity.

Rate Note:

**The rates indicated by the tuning processes
do not correspond to any existing
"Radionics Rate System" - thus, the rates indicated
are unique to 7-21092014 Radionics Machine.**

1a) Alternatively connect an external stick pad and lightly stroke it with the thumb while concentrating on the indicated diagnosis and the creation of an appropriate remedy, and tuning the "Remedy & Intention" pots. When the thumb feels "stuck", the pots are correctly tuned to the rate of the witness sample and the appropriate remedy. It is important that the operator, to the exclusion of all else, should intensely concentrate and focus their mind on the desired intention during tuning.

Potentizing the Remedy

1) If a physical remedy is to be produced, place an appropriate remedy carrier (lactose pills, alcohol base, water, sync stone, etc) on the potentize pad, set the "Potency Select" pot to the desired level, and set the multiplier switch to the desired range (if no particular potency level is required, set the "Potency Select" pot to maximum (e.g. 100) and the multiplier switch to x1), and switch the pad in.

2) Allow the potentization phase to run for 10 to 20 minutes - or whatever time the operator considers appropriate.

Once fully potentized - this can be confirmed by the pendulum - the remedy is ready for use.

Using the Remedy

1) Place the potentized remedy on the witness pad and move the original witness sample to the potentize pad (check that the potentize pad is switched in). If desired, retune/confirm the "Witness & Diagnosis" pot settings, and the "Remedy & Intention" pot settings (pendulum and dowse pad, or external stick pad). The remedy will now directly operate upon the target. This is especially effective if

the patient is present. Additionally, the process can be further amplified by connecting the patient to one of the machine's output ports (wristband, accessory, etc).

1a) Alternatively note the remedy, its potency, and dose on a piece of paper (prescription) and place it on the witness pad. Move the original witness sample to the potentize pad and switch the pad in. Retune/confirm the witness rate (pendulum and dowse pad, or external stick pad) if desired. The remedy will now directly operate upon the target. This is especially effective if the patient is present. Additionally, the process can be further amplified by connecting the patient to one of the machine's output coax ports (wristband, accessory, etc).

2) Switch in an appropriate broadcast antenna to even further amplify the intention.

3) The process should be run for whatever time the operator considers appropriate.

Broadcasting the Remedy

1) Place the potentized remedy on the witness pad and move the original witness sample to the broadcast pad and switch it in (switch out the potentize pad if it is on). If desired retune/confirm the "Witness & Diagnosis" pot settings, and the "Remedy & Intention" pot settings (pendulum and dowse pad, or external stick pad). The remedy will now directly operate upon the target irrespective of distance.

2) Alternatively note the remedy, its potency, and dose on a piece of paper (prescription) and place it on the witness pad. Move the original witness sample to the broadcast pad and switch the pad in. (switch out the potentize pad if it is on). If desired retune/confirm the "Witness & Diagnosis" pot settings, and the "Remedy & Intention" pot settings (pendulum and dowse pad, or external stick pad). The remedy will now directly operate upon the target irrespective of distance.

3) Switch in an appropriate broadcast antenna to further amplify the intention.

4) The broadcast process should be run for whatever time the operator considers appropriate.

5) When the whole process is complete, remove all witness and other materials, and set the machine to a neutral state (e.g. all switches off).

--()--

Distilled Energy Remedy Broadcast Evaporation Method

This Procedure is specifically designed to be used with the Series-7 Radionics Machine.

1) Place a suitable Remedy Witness on the Witness Pad.

2) Place a relevant amount of liquid Carrier (Vodka, Brandy, etc) in suitable container on the Potentize Pad.

3) Tune and Potentize the carrier as a New Remedy in the normal way (as described previously).

4) Place a drop or two of the New Remedy in a suitable glass dish and place on the Witness Pad.

5) Place the target to be operated upon on the Potentize or Broadcast Pad.

6) Tune the New Remedy to the Target and Potentize or Broadcast in the normal way (as described previously).

7) Continue the Potentization or Broadcasting process until the New Remedy has all evaporated.

Note: Always create a New Remedy for each Broadcast - this ensures that an optimal effect is developed as each Broadcast is exactly modulated and synchronised with the current personal and universal energy profiles and frequencies.

--()--

Distilled Energy Live Cell Imprintation Broadcast Method

This Procedure is specifically designed to be used with the Series-7 Radionics Machine.

- 1) Using a suitable container, take 1 x drop of the Subject's fresh blood and add it to 1 or more drops of a suitable Liquid Carrier (Vodka, Brandy, etc).
- 2) Place the blood-blend on the Witness Pad.
- 3) Tune and analyse (imbalance, pathology, etc) the blood-blend in the normal way (as described previously).
- 4) Tune and create a Remedy Frequency in the normal way (as described previously).
- 5) Either create and potentize a New Remedy in the normal way, or place the blood-blend on the Potentize Pad and use the Remedy Frequency to directly Potentize it.
- 6) Use the blood-blend as a Target, and Broadcast an Intention or a Remedy (e.g. the New Remedy) in the normal way (as described previously).

Note: the blood-blend must not be allowed to evaporate or dry out during the Imprintation Process. By mutual association the blood and the target are one and will respond to Intention, Imprintation, Potentizing, and Broadcasting, etc.

--()--

Enhancing a Process with an Audio Player - MP3, etc

- 1) Ensure the Input switch is in the off position.
- 2) Set up and activate the relevant broadcast or potentizing process as described above.
- 3) Plug an MP3/CD/Cassette player (headphone socket), containing a suitable audio program (hypnosis, subliminal, intensive, or empowerment, etc), into one of the resistive input jacks.

Note:

Do not connect the player into one of the non-resistive input jacks as damage to the player could occur.

- 4) Switch on the player and adjust its volume to between 50% and 100% (operator's discretion), and then switch on the input switch.
- 5) If desired the volume can be confirmed, or more finely adjusted, with a pendulum over the dowse pad (*alternatively, lightly stroke an external stick pad with the thumb*). Remember to switch in the dowse pad, execute the confirmation, and then to switch it out when confirmed (*alternatively, plug in and out an external stick pad as required*).
- 6) The broadcast process should be run for whatever time the operator considers appropriate.
- 7) When the process is complete switch off the input switch, switch off the player, and then unplug the player from the input socket.
- 8) When the process is complete, remove all witness and other materials, and set the machine to a neutral state (e.g. all switches off).

--()--

Psychometry Analysis

Introduction

Psychometry Analysis is based on the theory that material objects preserve within themselves, or have a link to, a psychomagnetheric energy record of their space/time experiential reality; and this record can be tuned into and interrogated through a suitable radionics device.

Tuning

1) Place the item (pictorial representations can also be used) to be investigated/interrogated on the witness pad.

2) Dowse with a pendulum over the dowse pad while the "Witness & Diagnosis" pots are tuned ("Remedy & Intention" pots should be set to maximum (e.g. 100)). When the pendulum appropriately confirms, the pots are correctly tuned to the energy of the witness object. It is important that the operator, to the exclusion of all else, should intensely concentrate and focus their mind on the desired intention during tuning.

Note: Consider connecting the pendulum into one of the machine's input or output ports to increase sensitivity.

2a) Alternatively connect an external stick pad and lightly stroke it with the thumb while the "Witness & Diagnosis" pots are tuned ("Remedy & Intention" pots should be set to maximum (e.g. 100)). When the thumb feels "stuck", the pots are correctly tuned to the energy of the witness object. It is important that the operator, to the exclusion of all else, should intensely concentrate and focus their mind on the desired intention during tuning.

Analysis

3) Dowse with a pendulum over the dowse pad while asking appropriate "yes/no" questions (use a prepared systemic checklist if appropriate). When the pendulum appropriately confirms, an affirmative/confirmation has been given.

Note: Consider connecting the pendulum into one of the machine's input or output ports to increase sensitivity.

3a) Alternatively connect an external stick pad and lightly stroke it with the thumb while asking appropriate "yes/no" questions (use a prepared systemic checklist if appropriate). When the thumb feels "stuck" an affirmative/confirmation has been given.

3b) Alternatively attach and hold a suitable input/output probe/accessory while asking (or being asked) appropriate questions (a prepared systemic checklist can also be used) and then personally channel the responses/information.

4) Repeat for all appropriate questions.

5) When the process is complete, remove all witness and other materials, and set the machine to a neutral state (operator's discretion).

Accessories

Following are typical accessories that can be used with the 7-21092014 Radionics Machine:

7-21092014 Radionics Machine - Accessories			
Pendulums of various sizes, shapes, composites.			
Pendulums can be connected to the machine's Input or Output ports to increase sensitivity.			
Radionics cards for rate, witness, remedy, trend, intention, and broadcast, etc.			
External Witness Pads of various sizes and shapes.			
External Dowse or Stick Pads of various sizes, shapes, composites, and coil profiles.			
External Wells of various sizes, shapes, composites, and coil profiles.			
External Potentize Wells - potentizing an Onyx Egg and a Sync Stone.			
Sync Stones with open coils.			
Sync Stones with closed coils.			

7-21092014 Radionics Machine - Accessories

<p>Sync Stones with flat coils.</p>	
<p>Sync Stone Slices of various sizes, shapes, types, and coil profiles.</p>	
<p>Sync Stone Slices imprinting an Onyx Egg and Sync Stones.</p>	
<p>Crystal Glass of various sizes and shapes with closed coils.</p>	
<p>Quartz with open coil.</p>	
<p>Rose Quartz with open coil.</p>	
<p>Amethyst with open coil.</p>	
<p>Steel Rod (short) with open coil.</p>	
<p>Steel Rod (long) with open coil.</p>	
<p>Steel Rod (short) with closed coil.</p>	
<p>Steel Rod (long) with closed coil.</p>	
<p>Integral Antennas of various configurations.</p>	

7-21092014 Radionics Machine - Accessories

<p>External Antennas of various configurations.</p>			
<p>MP3 Player for induction, affirmation, subliminal, and enhanced trend broadcasting.</p>			
<p>Ear Buds to verify/use audio (mp3) input/output.</p>			
<p>Croc Clips can be used to connect pendulums, misc devices, and head and wrist bands.</p>			
<p>Accessories are connected to the machine via suitable Plugs. Typical plugs include Jack Plugs (shown), Coax Plugs, and Banana Plugs.</p>			

--()--

Appendix 1

Systemic Checklist for Health Diagnosis

Adapt the following list for remote analysis as appropriate.

Medications

- Prescribed medications being currently taken (Indications)
- Over the counter medications being currently taken (Indications)
- Complementary remedies being currently taken (Indications)
- Vitamin and Mineral supplements being currently taken (Indications)

General Health

- General well-being
- Sleep
- Appetite
- Weight change
- Energy

Cardiovascular System

- Ankle swelling
- Palpitations
- Breathlessness when lying flat (orthopnoea)
- Chest pain on exertion
- Pain in legs on exertion
- Resting heart rate
- Resting blood pressure

Respiratory System

- Shortness of breath: exercise tolerance
- Wheezing
- Cough
- Sputum production (colour, amount, consistency)
- Chest pain related to respiration or coughing
- Blood in sputum (haemoptysis)

Alimentary

- Condition of mouth
- Difficulty with swallowing (dysphagia)
- Indigestion
- Heartburn
- Acid reflux
- Abdominal pain
- Weight loss
- Change in bowel habit
- Colour of motion (e.g. pale, dark, black, fresh blood)

Urogenital

- Pain on passing urine (dysuria)
- Frequency of passing urine by day or night (nocturia)
- Abnormal colour of urine (e.g. blood)
- Number of sexual partners

Males

- If appropriate age, prostatic symptoms such as difficulty in starting to pass urine, poor stream, terminal dribbling
- If appropriate, mental attitude to sex (libido), morning erections, frequency of intercourse, ability to maintain erections, ejaculation, urethral discharge

Females

- If premenopausal, age of onset of periods (menarche), regularity of periods (e.g. 28-day cycle), length of period, blood loss (e.g. clots, flooding), date of last period, contraception
- If relevant, presence of vaginal discharge
- If post-menopausal, bleeding
- Stress and/or urge incontinence
- If appropriate, libido, pain during intercourse (dyspareunia)

Central Nervous System

- Headaches
- Fits
- Faints
- Tingling (paraesthesiae)
- Numbness
- Muscle weakness
- Hearing symptoms (e.g. deafness, tinnitus)
- Excessive thirst
- Sleep patterns

Visual

- General appearance of eyes
- Appearance of Iris and Sclera
- Pain
- Disturbance of vision

Locomotor

- Joint pain or stiffness
- Muscle pain or weakness

Endocrine

- Heat intolerance
- Cold intolerance
- Change in sweating
- Prominence of eyes
- Swelling in neck
- Excessive thirst

Other

- Tobacco use (Indications)
- Alcohol use (Indications)
- Other substance use (Indications)

End of Checklist

--()--

Appendix 2

Biochemic Remedy Properties

Biochemic remedy rates can be determined and used for intention and broadcast operations. Additionally, physical biochemic remedies are well suited for radionics operations.

Biochemic Remedy Properties <i>(Schuessler comments in italics)</i>					
Chemical Groupings	Fluorine (F)	Chlorine (Cl)	Phosphorus (P)	Sulphur (S)	Silicon (Si)
Calcium (Ca)	Calc Fluor (1) Tissue restorer <i>Gives to the tissues the quality of elasticity (Sch)</i>		Calc Phos (2) Cell restorer <i>Cellular nutrition (Sch)</i>	Calc Sulph (3) System purifier <i>Blood purifier and healer (Sch)</i>	
Iron (Fe)			Ferr Phos (4) Anti-Inflammation <i>Oxygen carrier (external breathing) (Sch)</i>		
Potassium (K)		Kali Mur (5) Respiratory decongestant <i>Remedy for sluggish conditions (Sch)</i>	Kali Phos (6) <i>Nerve nutrient (Sch)</i> Antiseptic	Kali Sulph (7) Skin conditioner <i>Oxygen carrier (internal breathing of the tissues) (Sch)</i>	
Magnesium (Mg)			Mag Phos (8) Relaxant <i>Anti-spasmodic (Sch)</i>		
Sodium (Na)		Nat Mur (9) Moisture regulator <i>Water-distributing (Sch)</i>	Nat Phos (10) <i>Acid neutraliser (Sch)</i>	Nat Sulph (11) Water eliminator <i>Regulates the density of the intercellular fluids (fluids which bathe the tissue cells) by eliminating excess water (Sch)</i>	
Silicon (Si)					Silica (12) Skin cleanser <i>Cleanser and eliminator (Sch)</i>

--()--

Biochemic Remedy Keywords

Biochemic Remedy Keywords <i>(Schuessler comments in italics)</i>				
Tissue Salt	Principle Function	Constituent	Indications	Deficiency Symptoms
(1) Calc Fluor	Tissue restorer <i>Gives to the tissues the quality of elasticity</i>	Constituent of connective tissue in the body	For muscles, circulation, varicose veins, skin, and teeth Restores, and maintains tissue elasticity	Loss of tissue elasticity, dental decay, receding gums, and skin cracks and fissures <i>Possible curvature of the spine, eye problems</i>
(2) Calc Phos	Cell restorer <i>Cellular nutrition</i>	Constituent of body cells and fluids	For teeth, bones, blood, gastric juices, and aids vitality Constituent of bones, and teeth	Teeth disorders, and a lack of vitality and endurance <i>Possible rickets, misshapen bones, spinal curvature, joint pains</i>
(3) Calc Sulph	System purifier <i>Blood purifier and healer</i>	Constituent of liver cells, and connective tissue	For skin problems, adolescent pimples, and slow healing wounds Blood constituent, and cleanser	Skin problems, pimples in adolescents, and cuts that are slow to heal <i>Possible colds and sinus infections, skin eruptions that don't heal, infertility</i>
(4) Ferr Phos	Anti-Inflammation <i>Oxygen carrier (external breathing)</i>	Constituent of blood and carries oxygen in the body	For energy, vitality, inflammation, sore throats, and feverish colds and chills Anti-inflammatory	Feverish colds, chills, sore throats, and other inflammatory conditions Alternate with Kali Mur <i>Possible anaemia, low blood pressure, glandular problems, heart irregularities</i>
(5) Kali Mur	Respiratory decongestant <i>Remedy for sluggish conditions</i>	Unites with body protein which is present in the body's tissues	For respiratory congestion, coughs and colds Respiratory disorders, and decongestant	Congested conditions, respiratory disorders, and coughs and colds Alternate with Ferr Phos <i>Possible clots in the blood, circulatory problems</i>
(6) Kali Phos	Nerve nutrient	Constituent of nerve and brain tissues	For nervousness, fatigue, and nervous headaches Nerve nutrient <i>Antiseptic and a cleansing remedy</i>	Temporary nervousness, nervous headache, fatigue, tension, and other nerve complaints <i>Possible depression</i>
(7) Kali Sulph	Skin conditioner <i>Oxygen carrier (internal breathing of the tissues)</i>	Assists in the formation of mucus linings and the skin	For hair, nails, and minor skin ailments Skin and mucous membrane conditioner	Minor skin ailments, disorders of the scalp, hair, nails, and mucus membranes For brittle nails, alternate with Silica <i>Possible dandruff, hair loss, eczema, acne, dry flaky skin, dry lifeless hair</i>

Biochemic Remedy Keywords <i>(Schuessler comments in italics)</i>				
Tissue Salt	Principle Function	Constituent	Indications	Deficiency Symptoms
(8) Mag Phos	Relaxant <i>Anti-spasmodic</i>	Constituent of muscle and nerve cells	For nervousness, cramps, muscle spasms, and neuralgia Relaxant and anti-spasmodic	Spasm, period pains, cramps, and neuralgia Will usually act more rapidly if taken with a little hot water
(9) Nat Mur	Moisture regulator <i>Water-distributing</i>	Assists in water distribution to cells	For moisture control, relief of a runny nose and loss of taste or smell Water distributor	Dryness or excessive moisture, runny nose, and loss of taste or smell <i>Possible dehydration</i>
(10) Nat Phos	Acid neutraliser	Neutraliser of lactic acid in tissues	For acidity, heartburn, and rheumatism Acid neutraliser	Relief of acidity and heart burn. Used in the treatment of rheumatic ailments (inflammation and pain in the joints, muscles, or fibrous tissue, especially rheumatoid arthritis (inflammation of a joint)) <i>Possibly skin tends to get yellowish and sallow</i>
(11) Nat Sulph	Water eliminator <i>Regulates the density of the intercellular fluids (fluids which bathe the tissue cells) by eliminating excess water.</i>	Stimulates natural secretions	For water retention, acid elimination, biliousness, and influenza Excess water and acid eliminator	Assists with the body's water balance, and is indicated in the treatment of biliousness (disorder of the bile), liver upsets, water retention, and influenza <i>Possibly bloating, symptoms of congestion around the thyroid gland, feeling of being waterlogged</i>
(12) Silica	Skin cleanser <i>Cleanser and eliminator</i>	Constituent of the connective tissues of the body	For skin conditioning and cleansing, pimples, spots, and brittle nails Skin tissue cleanser and conditioner	Assists in the treatment of pimples and spots For brittle nails, use in alternation with Kali Sulph <i>Possibly lank hair, dull skin, sores, receding of the gums</i>

--()--

Biochemic Combin Remedies

Combins are groupings of Tissue Salts designed for a specific purpose - the combins noted below are the original combins as specified by Schuessler. Additionally, physical biochemic combins are well suited for radionics operations.

Biochemic Combin Remedies <i>(After Schuessler - Biochemic Handbook)</i>		
Combin	Function	Content
A	For neuralgia, neuritis, sciatica, and allied conditions	Ferr Phos, Kali Phos, Mag Phos
B	For general debility, nervous exhaustion, and during convalescence	Calc Phos, Ferr Phos, Kali Phos
C	For acidity, heartburn, dyspepsia, and allied conditions	Mag Phos, Nat Phos, Nat Sulph, Silica
D	For minor skin ailments and scalp eruptions, eczema, acne, and scaling of the skin, etc	Kali Mur, Kali Sulph, Calc Sulph, Silica
E	For flatulence, colic, indigestion, and allied conditions	Calc Phos, Mag Phos, Nat Phos, Nat Sulph
F	For nervous headaches, migraine, and allied conditions when associated with nervous weakness	Kali Phos, Mag Phos, Nat Mur, Silica
G	For backache, lumbago, piles, and where there is an over-relaxed condition of the tissues (loss of elasticity)	Calc Fluor, Calc Phos, Kali Phos, Nat Mur
H	Hay Fever and associated symptoms	Mag Phos, Nat Mur, Silica
I	Fibrositis [inflammation of fibrous connective tissue], muscular pains, and allied conditions	Ferr Phos, Kali Sulph, Mag Phos
J	For coughs, colds, catarrh, chestiness and allied conditions The winter seasonal remedy	Ferr Phos, Kali Mur, Nat Mur
K	For brittle nails, failing hair, and allied conditions	Kali Sulph, Nat Mur, Silica
L	For over-relaxed conditions of veins and arteries and allied conditions	Calc Fluor, Ferr Phos, Nat Mur
M	For rheumatism, [rheumatic pains] and allied conditions	Nat Phos, Nat Sulph, Kali Mur, Calc Phos
N	For menstrual pain and allied conditions	Calc Phos, Kali Mur, Kali Phos, Mag Phos
P	For aching feet and legs, poor circulation, chilblains, and allied conditions	Calc Fluor, Calc Phos, Kali Phos, Mag Phos
Q	For catarrh, sinus disorders, and allied conditions	Ferr Phos, Kali Mur, Kali Sulph, Nat Mur
R	For infants' teething pains, and to aid dentition	Calc Fluor, Calc Phos, Ferr Phos, Mag Phos, Silica
S	For stomach upset, biliousness, and sick headache The summer seasonal remedy for digestive and intestinal disorders, lassitude, and allied conditions	Kali Mur, Nat Phos, Nat Sulph

--()--

Comb 12, Biocombin, and Bioplasma

This is a combin that contains all 12 tissue salts, and is used as a tonic to boost all aspects/areas of the body. However, Schuessler never mentioned the use of such a combin.

--()--

Biochemic Remedy Dosage

Biochemic remedies and dosages can be noted and used for intentions and broadcasts.

Biochemic Remedy Dosage (After Schuessler)	
<p>Unlike "true" homeopathic remedies, tissues salts are taken with frequency over a period of time with no worry of an aggravation.</p> <p>How often a dose is taken during the day depends on the condition and whether it is "acute" or "chronic" - your practitioner will advise you regarding specific dosages.</p>	
Administration	
<p>Tablets should be placed on or under the tongue for optimal effect, since they are best absorbed through the mucous membranes.</p> <p>For children less than three months, and pets, crush the tabs and place under the tongue. Alternatively crush the tabs and add to a little warm water.</p> <p>Do not handle the remedies - tip the tabs into the lid or onto a plastic spoon. Some authorities recommend that the remedies do not come into contact with metal implements (metal spoons, etc).</p> <p>When storing the remedy containers, they should be kept dry, tightly closed, and away from heat and strong aromas.</p>	
General Dosage Rule of Thumb	
Acute Conditions	Chronic Conditions
<p>For acute conditions, a dose of 4 tabs every 30 minutes if the condition merits it. Then take hourly and two hourly as the condition improves. (<i>Schuessler</i>)</p> <p>Alternatively, dissolve the tissue salts in hot water (9 tabs in 200 ml for adults) and sip it every 5-15 minutes depending on the severity of the symptoms. Once improvement occurs sip every hour or two. This method is very good for the cramping, spasmodic pains of Mag Phos e.g. period pains.</p>	<p>Two or three doses morning, noon and night (Dr Schuessler recommends 3 doses daily).</p> <p>Consequently, an adult with a chronic condition would take 4 tabs in the morning, 4 at noon, and 4 at night.</p>
Acute Definition	Chronic Definition
<p>The acute condition is short and severe, not drawn out of chronic. It is of sudden onset with more or less severity of symptoms. Acute conditions can develop into chronic ones.</p>	<p>The chronic condition is lingering, lasting, opposed to acute. The term does not imply anything about the severity of the condition. However, a chronic ailment may have acute phases and for such phases the directions for acute conditions will apply.</p>
Standard Single Dose	
Adults	4 tabs
Children over 3	2 tabs
Children under 3	1 tab
Babies over 3 months	1 tab
Notes	
<p>For children under three the tablet can be crushed and the powder given or dissolved in a little warm water.</p> <p>Practitioners will often just prescribe one or two of the tissue salts on their own in order to deal with the problem. Each tissue salt has what is described as a large "picture" associated with it and could cover a very wide range of symptoms in a case.</p> <p>The Remedies are perfectly wholesome and may be taken freely at any time. Nothing is to be gained by increasing the size of the dose but frequency of dose may be varied as occasion requires. If you discover a time for taking and frequency of dose best suited to your needs, this may be adopted. (<i>Schuessler</i>) This has reference to any supplementary remedy which, while of secondary importance, still has some bearing on a particular case.</p>	

Intercurrent remedies

Intercurrent remedies are intended to assist the action of the principal remedy or remedies by correcting any secondary conditions which may have a retarding effect on the general treatment. Intercurrent remedies are usually given at bedtime and again on rising. (*Schuessler*)

--()-

Appendix 3

Astro External and Internal Sign, Organ, and Disease Correspondences

Astro external and internal correspondences can be used for radionics analysis and intention operations.

SIGNS ORGAN, AND DISEASE (After Ebertin)			
Sign	Primary Influence	Secondary Influence (Reflex)	Disease
Ari (1st)	Head, face, ears, eyes, and nerves.	Kidneys, and liver.	Headache, brain disease, apoplexy (stroke), epilepsy, neuralgia, rashes on the face (with impaired kidney function).
Tau (2nd)	Neck, throat, tonsils, and respiratory organs.	Sexual and excretory organs, and glandular system.	Goitre (enlargement of the thyroid), pharyngitis, tonsillitis, laryngitis, diphtheria, choking fits, mumps, disorders of the thyroid gland, heart disease, and abdominal disorders.
Gem (3rd)	Shoulders, arms, hands, and 1st through 4th dorsal vertebrae.	Thighs, and digestive organs.	Pulmonary diseases, asthma, bronchial catarrh, fractures of arms or legs, and nerve troubles.
Can (4th)	Chest, stomach, lungs, and breasts (mammary glands).	Knee, bones, tibia (kidneys).	Stomach disorders, eructation (belching), hiccups, heartburn, dropsy (oedema - watery fluid collecting in the cavities or tissues of the body), failure of peristalsis (constipation), under-active lymph glands, inebriety (drunkenness), depression, nodularity (breast).
Leo (5th)	Heart, circulation, back, and 5th through 9th dorsal vertebrae.	Cardia (upper end of stomach), all blood vessels, disorders of veins, and abdomen.	Heart disease, circulatory disorders, anaemia, arteriosclerosis (loss of elasticity of the artery walls), venous diseases, abdominal disorders, impotence, spinal trouble, neurosis, and throat trouble.
Vir (6th)	Digestive organs, spleen, liver, and gallbladder.	Pancreas, feet, and toes.	Intestinal disorders, peritonitis, diarrhoea, constipation, disorders of liver and gall bladder, and intestinal ulcers.
Lib (7th)	Kidneys, bladder, and the lumbar (loin and lower back area) region.	Uterus, region around navel, and head.	Nephritis, gravel, urine retention, impure blood, poor skin condition (because of deficient kidney function), nervous disorders, and erysipelas (inflammation, deep red, of the skin, especially the face and scalp).
Sco (8th)	Sexual and excretory organs, uterus, testicles, and rectum.	Nose, throat, tonsils, and bladder.	Bladder complaints, gravel, urine retention, impure blood, poor skin condition, rheumatism (inflammation and pain in the joints, muscles, or fibrous tissue, especially rheumatoid arthritis (inflammation of a joint)), nasal polyps, nasal catarrh, furuncle (boil), haemorrhoids, neurasthenia (fatigue and weakness, often with intestinal distress, headache, irritability, and insomnia), sexual diseases, operations to do with the sexual organs.
Sag (9th)	Muscular system, thighs, and lumbar (loin and lower back area) region.	Shoulders, arms, digestive apparatus.	Hip disease, rheumatism (inflammation and pain in the joints, muscles, or fibrous tissue, especially rheumatoid arthritis (inflammation of a joint)), sciatica (neuralgia of the hip and thigh), gout, locomotor disturbances, arteriosclerosis (loss of elasticity of the artery walls), nervous disorders, and impure blood.
Cap (10th)	Skin and bone system, and knee.	Chest, stomach, and lungs.	Rashes, scald (scab on the head), polyarthritis (inflammation of a joint), tuberculosis of the bones and joints, furunculosis (diseased condition in which boils appear), scrofula (disease with glandular swellings, a form of tuberculosis), predisposition to indurations (becoming hard or callous), keratosis (horny growths on skin).

SIGNS ORGAN, AND DISEASE (After Ebertin)			
Sign	Primary Influence	Secondary Influence (Reflex)	Disease
Aqu (11th)	Shin, calf, ankle, and circulation.	Heart, back, and circulation.	Fractured ankle, dislocations, sprains, cramp in calf muscle, phlebitis (inflammation of the walls of a vein), swollen legs, varicose veins, blood diseases, spinal disorders, locomotor disturbances, heart trouble.
Pis (12th)	Feet, toes, and calcaneus (heel bone).	Digestive organs, spleen, nerves, lungs, and liver.	Weak feet, flat feet, diseases because of chills, rheumatism (inflammation and pain in the joints, muscles, or fibrous tissue, especially rheumatoid arthritis (inflammation of a joint)), gout, alcoholism, scrofulosis (glandular swellings, a form of tuberculosis), and poisoning

Appendix 4

Bach Flower Remedies Basic Repertoire

Bach Flower Remedies can be used for radionics analysis and intention operations.

Bach Flower Remedies	
Name	Application
Agrimony	Hiding worry behind a brave face, alcohol, drugs, food. Avoids confrontation
Aspen	Unknown, inexplicable fears or apprehensions. Secret fear of some impending evil
Beech	Critical attitude. Intolerant of others. Arrogance
Centaury	Weak willed. Easily exploited or imposed upon. Can't say no to others
Cerato	Lacks confidence in own self/decisions. Doubts own judgement. Seeks confirmation of others
* Cherry Plum	Uncontrolled, irrational, suicidal thoughts. Uncontrolled temper. Fear of loss of control. Fear of losing one's mind
Chestnut Bud	Repeats same mistakes, faults, arguments, accidents. Unable to learn from experience
Chicory	Over possessive. Self-centred and demanding. Clinging, and over protective. Self-pity if unable to have own way. Manipulative of others, and uses emotional blackmail
* Clematis	Daydreamer, lacks concentration, inattentive, absent minded. Mental escapism
Crab Apple	Feels unclean, infected, self-disgust. Ashamed of ailments. Fear of infection
Elm	Feelings of inadequacy. Overwhelmed by responsibility. Psychosis, and neurosis
Gentian	Depressed for known reasons. Pessimistic, doubting, despondent, sceptical, easily discouraged
Gorse	Despair, hopelessness, defeatist. "Oh, what's the use!"
Heather	Self-centred, obsessed with own troubles and affairs. Talkative, and needs an audience
Holly	Hatred, envy, jealousy, suspicion. Projecting or receiving
Honeysuckle	Longing for the past. Home-sickness. Not living in the present. Nostalgia
Hornbeam	Weariness, mental exhaustion. Procrastination. "Monday Morning" feeling
* Impatiens	Impatient, irritable, excessive reactions (especially with others)
Larch	Lack of self-confidence. Inferiority complex. Expects to fail. Impotency
Mimulus	Known fears or apprehensions (security, loss, illness, cancer, timidity, poverty, etc)
Mustard	Depressed for unknown reasons. Depression, "Dark cloud" descending. Saddened for no reason
Oak	Normally strong, but unable to struggle against adversity or illness
Olive	Completely exhausted. Extreme physical and mental fatigue
Pine	Guilt complex, self-reproach. Blames self, even for mistakes of others. Always apologising
Red Chestnut	Excessive concern and worry over others

Bach Flower Remedies	
Name	Application
* Rock Rose	Acute state of fear, panic, alarm, terror. Nightmares, night-terrors
Rock Water	Self-denying, strict, hard on self. Rigid minded and views. Suppressed inner needs
Scleranthus	Uncertainty, indecision. Vacillation, fluctuating moods and opinions. Lacks inner balance
* Star Of Bethlehem	After effects of physical, mental, or psychic frightening experiences. Fright following an accident or serious news. Comforter and soother of pain and sorrow
Sweet Chestnut	Feelings of utter dejection. Bleak outlook. Reached the limit of endurance
Vervain	Over enthusiastic. Fanatical beliefs. Missionary-complex. Highly strung. Poor sleep
Vine	Dominating, inflexible, tyrannical, autocratic, arrogant. Striving for power
Walnut	Adjustment to transition or change (Illness, teething, puberty, menopause, divorce, new surroundings, new job, retirement, new relationship, leaving home). Protection (emotional, psychic, and spiritual/religious)
Water Violet	Inner reserve. Proud withdrawal, feeling of superiority in isolation. Little emotional involvement. Enjoys being alone
White Chestnut	Persistent unwanted thoughts. Pre-occupation with worry or episode. Mental arguments
Wild Oat	Helps determine life's path. Indefinite as to ambitions. Opens "Spiritual" sight
Wild Rose	Apathy. Resignation to fate. Lack of interest and ambition. Karma/Karmic debt. Fatalistic
Willow	Resentment. Embitterment. "Poor old me!". Victim of fate attitude
* Rescue Remedy	All purpose emergency composite. Comforting, calming and reassuring to those distressed by startling experiences, mental stress, tension, desperation, terror, panic, exams, dentist, shock, etc. CHERRY PLUM, CLEMATIS, IMPATIENS, ROCK ROSE, and STAR OF BETHLEHEM
